

## CoVid-19 Corona-virus Action Plan

RadonProz Inc. has always helped its customers maintain healthy homes through Radon testing & Mitigation. We will continue to serve our valued customers through this pandemic by taking extra precautions to keep our customers and our staff safe. We realize we are also addressing health concerns with the services we provide and do not want to limit our work. As the situation continues, we will be closely monitoring any further developments and following recommendations set forth by the Government of Canada and Province of Manitoba.

We will be taking the following precautions while continuing to operate, until further notice.

- Frequent hand washing and hygiene practices will be encouraged. Where hand washing is not available, hand sanitizer will be readily available in our company vehicles
- Whenever possible our staff will adhere to social distancing recommendations
- Our staff will not be greeting customers with a hand-shake; please be understanding of this effort to protect yourself and our staff
- If an employee or their family members are showing signs of influenza or a cold they are encouraged to stay home
- All work areas, tools, and mitigation systems will be disinfected before and after work is done
- Disinfectant wipes or disinfectant spray will be used to sanitize equipment
- Staff may use N95 dust masks and safety eye wear while working on customer premises
- Outside of work, our staff is encouraged to practice social distancing as recommended by the Government of Canada and Province of Manitoba
- Monitoring employee travel and if international, requiring staff to stay home for 14 days or receive medical clearance before returning to work

In order to maintain the safety of our employees, if any of the below statements apply, we reserve the right to cancel or reschedule work.

- If the person has fever AND signs/symptoms of lower respiratory illness (e.g. cough or shortness of breath)
- If the person has had close contact with laboratory confirmed COVID-19 patient within 14 days
- If the person has fever OR signs/symptoms of lower respiratory illness AND a history of travel from affected geographic areas within 14 days of symptom onset

Through these challenging times, we understand if you have any concerns or reservations and if you wish to reschedule your appointment or site-walk through, we will accommodate these requests. Please feel free to contact our main office line at **204-930-7769** or email [safety.radonproz@gmail.com](mailto:safety.radonproz@gmail.com) with any of your safety questions.
